boys. (Aims to Educate
and prepare moral committed
Science professionals)

The DRSS focused on
Nurturing and Developing
Science Serious study
for Teenage students and
Cultivating researchers on
topics relating to the dialogue
between Islam and modern
science in areas such as
cosmology, evolution,
environment, practical
astronomy

Our Philosophy

An education upholds the root of existence following the values with balancing the modern ideas and culture, where books and blackboard are tools rather than authority of our curriculum. We are trying to create porous learners, who understand their own uniqueness also welcoming what others are.

Mission

A safe education for Girls - compendious value based learning for the completion to strive both worlds with balancing for the modern world.

Vision

We envisage creating a bunch of learners as an abstract for both worlds or under any scenarios. To root them with the glory of freedom and to be an independent being also to nourish them under a horizon emphasis on the process 'how on come to know'.
